

REMARKS

This application claims the priority of PCT/GB2004/004701 filed on November 8, 2004; GB 0325883.7 filed on 6 November 2003; and GB 0329520.1 filed on 19 December 2003, the entire contents of which are hereby incorporated in total by reference.

The U.S. Patent Office is hereby requested to examine the application as amended. The amendment to the specification was made to include the priority information. The amendments to the claims were made to provide the correct numbering, remove the multiple dependencies and conform to proper formatting. No new matter has been added by making these amendments.

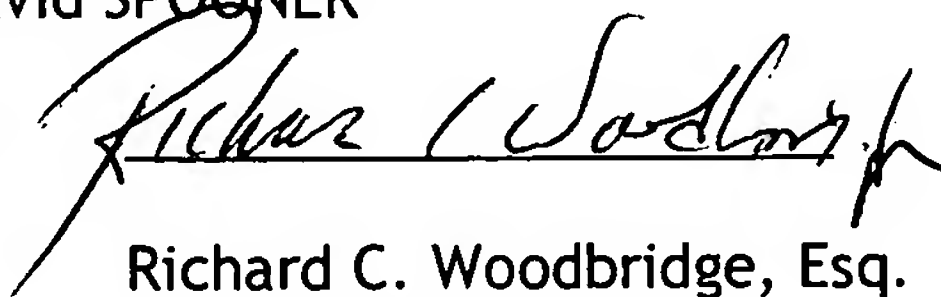

We have also enclosed a Search Report dated March 11, 2005 as well as a copy of the Combined Search and Examination Report dated March 14, 2005 under Sections 17 and 18(3) in the corresponding UK patent application GB 0424653.4.

If the patent examiner has any questions or comments, he/she is respectfully requested to contact applicant's attorney at the telephone number indicated below so that additional amendments may be added as required.

Respectfully submitted,

David SPOONER
